PRESS RELEASE

February 25, 2026

ELLWOOD Aluminum Welcomes Nathan Goebel as General Manager

Hubbard, Ohio – ELLWOOD Aluminum, a manufacturer of large-diameter aluminum ingots, billets, rectangular slabs, and cast plates, has named Nathan Goebel as General Manager to lead company operations.

Goebel, who holds a bachelor's degree in chemical engineering from West Virginia University and an MBA from Xavier University, brings his experience as a General and Plant Manager to his new role. In his position, he will lead all aspects of ELLWOOD Aluminum, including safety, operations, material procurement, quality, and logistics, driving the company toward sustained growth and success.

Outside of ELLWOOD Aluminum, Goebel leads an active lifestyle, pursuing hobbies such as competitive shooting, Jiu-Jitsu, and physical fitness. He cherishes spending quality time with his wife, Jennifer, two daughters, and their family dogs.

"I am excited to take on this role and lead the dedicated team at ELLWOOD Aluminum," said Goebel, General Manager of ELLWOOD Aluminum. "Our focus will remain on safety, operational excellence, and providing unmatched quality and service to our customers. We are committed to pushing the boundaries of innovation to meet the evolving needs of the industry."

Using vertical direct chill casting technology and a fully equipped lab, ELLWOOD Aluminum has the capacity for casting, processing, and quality monitoring of large aluminum ingots in round and rectangular shapes. With dedicated melting and holding furnaces and a casting pit capable of lengths up to 360 inches, ELLWOOD Aluminum can meet any customer specifications to serve as a true partner. The company prides itself on manufacturing quality aluminum ingots, billets, slabs, and cast plates used in industries including aerospace, defense, automotive, and tooling.
